Insurance Min 2026.docx;

Jason,

I know I referenced non-owner renters insurance; the attached is our minimums. I'm not sure if we have a doc section yet or student resources.

Subject: Re: DCFA website requests

Jason,

Wow, it's looking awesome!

I'm going to send snaps with comments.

PART 141

Private Pilot**\$17,644.50**

+ \$1,000 deposit

Your foundational course. Basic flight operations taught with airline-style crew coordination, checklist discipline, and the standards you'll be expected to meet on the flight deck.

PREREQUISITE

None — \$150 Discovery Flight required for application

TOTAL FLIGHT HOURS

45

HOURS BREAKDOWN

37.5

Flight Instruction

58.5

Ground Instruction

36

Pre/Post Instruction

7.5

Solo

HIGHLIGHTS

- ✓ Crew concept training from day one
- ✓ Examining Authority — no DPE checkride wait
- ✓ Challenge / response checklist methodology
- ✓ Airline-developed materials and flows
- ✓ Foundation for every advanced rating

[Get started with PPL →](#)

*We are going to move away from the \$1000 deposit required for enrolment (which covered books, online applications, etc.), to "required course training materials". These Course Training Materials will be due and paid prior to enrollment into each course. I am constructing a list for each course, including the materials and costs.

Private Course cost is 16,644.50 (includes the in-processing course)

*Private Pre/Post Instruction is 27 hours

- Prerequisite
 - Read, write, speak, and understand English
 - Provide a passport or birth certificate for proof of US citizenship. International students must complete TSA registration and authorization.
 - Obtain at least an FAA third-class medical certificate. First-class medical is highly recommended.
 - Obtain an FAA student pilot certificate.
 - Course Training Fee \$... (Student books/supplies and in-processing course if not previously attended)
 - Secure non-owned aircraft insurance with \$50K aircraft physical damage coverage for single-engine aircraft before first flight.
 - Discovery Flight is not required for enrollment (Remove)

PART 141 VA-APPROVED

Commercial Single-Engine

\$36,738

The transition from hobby to profession. Learn the standards and decision-making expected in real-world commercial operations, with an introduction to multi-engine flying built in.

PREREQUISITE	TOTAL FLIGHT HOURS
Instrument Rating	121

HOURS BREAKDOWN

104 Single Engine	17 Complex / Multi-Engine	54 Ground Instruction	33 Pre/Post Instruction
----------------------	------------------------------	--------------------------	----------------------------

HIGHLIGHTS

- ✓ Professional flying standards
- ✓ Includes 17 hours of complex / multi-engine time
- ✓ Bridges to ATP qualification
- ✓ VA-approved program

Get started with CSEL →

- Prerequisite
 - Course Training Fee \$... (Student books/supplies and in-processing course if not previously attended)
 - Secure non-owned aircraft insurance with \$50k aircraft physical damage coverage for single-engine aircraft.

PART 141

Transition Course

\$2,700

For pilots joining DCFA with an existing PPL or higher. Orients you to our training documentation, instructor expectations, and the academy's flow-based procedures. Required before aircraft rental.

PREREQUISITE	TOTAL FLIGHT HOURS
Private Pilot Certificate or higher rating	5

HOURS BREAKDOWN

5 Dual Single-Engine	5 Ground Instruction	3 Pre/Post Instruction
-------------------------	-------------------------	---------------------------

HIGHLIGHTS

- ✓ Required to rent academy aircraft
- ✓ Orientation to DCFA training methodology

- Transition Course is \$1700 (the \$2700 includes the deposit, but we are going away with the deposit)
- Prerequisite
 - Course Training Fee \$... (Student books/supplies and in-processing course if not previously attended)
 - Secure non-owned aircraft insurance with \$75k aircraft physical damage coverage for multi-engine aircraft if enrolling in Multi-Engine Commercial Add-On, or \$50K aircraft physical damage coverage if enrolling in any other course.

PART 141

Multi-Engine Commercial Add-On

\$6,605

Earn a Multi-Engine Land rating on your Commercial certificate — advanced systems, asymmetric-thrust handling, and crew-style multi-engine operations in the Diamond DA-42.

PREREQUISITE

Commercial Single-Engine

TOTAL FLIGHT HOURS

12.5 (10.5 aircraft + 2 sim)

HOURS BREAKDOWN

10.5 DA-42 Flight	2 DA-42 Simulator	19 Ground School	12.5 Flight Instruction
----------------------	----------------------	---------------------	----------------------------

HIGHLIGHTS

- ✓ 10.5 hrs in the DA-42 — \$4,200
- ✓ 2 hrs DA-42 simulator — \$200
- ✓ 19 hrs ground school — \$1,330
- ✓ 12.5 hrs flight instruction — \$875

Get started with MEL →

The Multi-Engine Commercial Add-On course is \$ 6,980.00-\$ 7,905.00 (Depending on utilization of the Simulator). Need to advertise this range, as this is what we bill the GI (military benefits)

- Remove cost breakdown under highlights
- Prerequisite
 - Course Training Fee \$... (Student books/supplies and in-processing course if not previously attended)
 - Secure non-owned aircraft insurance with \$75k aircraft physical damage coverage for multi-engine aircraft before first flight.
- Add VA-approved program

PART 61

ATP Multi-Engine

\$4,715
+ \$1,000 deposit

The Airline Transport Pilot certificate — the highest pilot certification the FAA issues. Covers Part 121 regulations and the crewed multi-engine protocols of airline operations.

PREREQUISITE

Commercial Multi-Engine

TOTAL FLIGHT HOURS

6.5

HOURS BREAKDOWN

6.5 Flight Instruction	20 Ground Instruction	8 Pre/Post Instruction
---------------------------	--------------------------	---------------------------

HIGHLIGHTS

- ✓ Part 121 regulations and procedures
- ✓ Airline crew protocol training
- ✓ Highest pilot certification available

- Prerequisite
 - Course Training Fee \$... (Student books/supplies and in-processing course if not previously attended)
 - Secure non-owned aircraft insurance with \$75k aircraft physical damage coverage for multi-engine aircraft before first flight.

Let me know if you have any questions. I'll get back to you once I get the cost breakdown with Course Materials and go through the rest of the site. Overall, super excited with the flow and look!

Best,

Michelle Dwyer

Hey Michelle - I sent this to Frank this morning and figured I'd share with you too. It's in response to some of his requests.

See attached PDF for information about the updates and the overall website.

Also, here's the link to the test website:

Thanks Frank for the feedback. I'll make the changes and also look into the automation and payment processing.

Feel free to send me pictures via email but I'm also looking into designing a designated URL for you all so you can upload blogs, news articles, and pictures.

Thanks,

Jason Glenn

Subject: DCFA website requests

Hi Jason,

Thank you for your offer to help us revamp and, perhaps more importantly, gain full control of our website!

We've all had an opportunity to review the site you created, and really like how you've simplified several of the pages! Below, are a few requests that we came up with. The first section is items that we feel are a priority for getting the website up and running, so we can close down the old one.

The second section is items we would like to add when time permits.

The ATP program is "Part 61" (rather than Part 141)

Add ATP-CTP is VA approved. Add an asterisk that says "Simulator time only" \$650 out of pocket for VA ground school portion

ATP-CTP scheduling calendar- We often change the dates for ground school and simulator to accommodate customers. Can this be easily manipulated by us?

After a student requests a date can we:

- Be notified of the request
- Automatically respond to the student with an email
- Offer pay now from our website
- Remove that particular simulator date from "inventory" after both slots have been purchased (2 slots for each date). The ground school date and space can remain because we can take an unlimited number for each month.

Multi-Engine Commercial add on:

- Total- \$6,605* Based on 10.5 hours in Aircraft 2.0 hours in Simulator
- 10.5 hours IN DA-42 \$4,200
- 2 hours DA-42 sim \$200
- 19 Hours Ground school \$1,330
- 12.5 Hours Flight instruction \$875

Remove the statement "Add a Multi-Engine Land rating to your Commercial certificate. Satisfies the 25 hours of actual multi-engine time required for the ATP certificate."

"Examining Authority" for the Private and Instrument ratings

Discovery flight is \$150

Transition course is \$2,700- no \$1,000 deposit

ATP-CTP Edit - "Ground school offered typically the first week of every month"

Add 529 Plan info in financing section

Remove old F9 pic with masks and Key lime pic.

We realize, we need to take these pictures and provide them to you.

Add pic of Sim with info- benefits

Add DCFA student Grad pics with bio (Carson, Stephen Mount, Cody, Alexa, Johnny etc...)

Add pics of BJ, Keith, Frank, Michelle with bio, vision, some personal, etc

Add names/types of aircraft under "Fleet" (pics?)

Add pics of A320 Sim- ATP-CTP section along with reviews of past clients.

Add some google reviews/comments

Add "Our Partners" either on first page or under "About" (Add MSU) I like seeing the emblems/brands we partner with

Add current posts that pop up along with our IG/FB/TikTok social media pages.

Create a blog page so we can update with news and current industry info

Again, thank you for all your work on our website! Please reach out anytime!

Respectfully,

Frank Schultz
